

Air Compressor

AC-J701 AC-J702 AC-J703 AC-J704

Features

- Compact structure, stable performance, large flow rate, easy operation and maintenance.
- Oi-free and super silent design, the air supply is assumed to be clean and harmless. Noise pollution is reduced.
- There is an anti-corrosion coating inside the tank.
- Equipped with electrical protection devices and anti-rust management to ensure safe operation and the single motor can be well controlled and operate normally.

Application

It can be widely used in medical care, laboratory equipment, scientific research, industrial production, daily life and other fields that require clean air.
